Rao Fu's Enigmatic Worlds at Art Fair Tokyo 2025

At Art Fair Tokyo 2025 (March 7–9) in the Tokyo International Forum, Perrotin Tokyo will showcase works by Dresden-based artist Rao Fu, known for merging Eastern philosophy with European painting traditions. His enigmatic, hybrid figures inhabit theatrical, otherworldly landscapes, their fluorescent, eyeless gazes piercing beyond the canvas, captivating viewers with hypnotic intensity. Rao Fu's art delves into vulnerability, self-protection, and resilience, creating narratives that transcend time and space. Don't miss the chance to experience his thought-provoking pieces at Japan's largest art fair.
